Carlyle

Carlyle is a traditional profile with a modern twist. The luster and sparkle of modern gilding updates the look of the classic petite scoop adding a touch of sophistication. A delicate deboss is a contemporary treatment to the traditional beaded lip of classical mouldings of past eras. These subtle adjustments in design help streamline the overall look and convey a sense of fine workmanship.

The new styling allows the graceful scoop to be utilized on a wider range of artwork. The metallic finishes get a softer treatment, creating a lightness to the collection's palette in order to work with today's interior color schemes and art genres such as digital prints, illustration and color/black and white photography.

The collection can also be used to bridge styles within a setting where more traditional art and framing are present. Carlyle is naturally a lovely collection for collectibles, antiques, documents, drawings, etchings and fine art prints. Now, it can be shared with the art and home decor in today's market. Artists and designers will now have present-day classics at their disposal to create not only something new, but something that is timeless
