## CHAUMES

*The Umbrian olive veneer is distressed with a finer hand to convey the look of repurposed antique furniture of higher craftsmanship, giving the appearance of a vintage piece that shows its heritage.*

## COLLETTE

*Creating the look of a surface that has experienced generations of use is achieved by applying paint over lightly stained wood producing fine cracks. The paint is then chipped and scratched away to reveal the underlying surface.*

*An antiquing glaze is then hand applied on top, giving the paint a naturally aged appearance while enhancing the edges of each crack and chip.*
