GEHRY

Gehry is a classic modern collection with an industrial aesthetic, rendered in the textural complexity of grinded metal on a geometric profile. Plays of light are produced in the radial swirls and streaks and is the star of the show, introducing a new and unique finish for picture framing artwork in a variety of interior design schemes.

Five finishes equally showcase the coolness and warmth of metal; silver (84283), champagne (84284), and pewter (84285) are beautiful accompaniments to black and white photography, etchings, graphic art, and art with neutral tones. Copper (84286) and gold (84287) bring life to more colorful media and modern art, color photography, lithographs, and watercolors, as well as transitioning many genres of art into a single design theme, such as gallery walls, and framing art collections. Gehry's 1" rabbet allows for framing works on canvas and dimensional work requiring spacer and shadow box applications.
