HAMPSHIRE

The Hampshire Collection consists of 11 mouldings with distressed painted finishes creating the look of surfaces that have been worn by time and the elements.

Each painted finish is applied in layers over lightly stained wood to create contrast in the scratches, chips and dents that make up the collections textural complexity.

Hampshire is a great collection that is right in line with the current revival of shabby chic and provincial design in art and interiors, providing framing solutions for folk art, oil paintings, pastels, watercolors, etchings, decorative art, and lithographs.
