# JASPER

COLLECTION

*Jasper is a collection of genuine walnut and maple veneer profiles featuring 28 items in the palette of maple, walnut, dark walnut, and ebony. This is a collection made to become a staple for framers as a 'go-to' picture framing solution in classic wood finishes.*

*Jasper boasts seven profiles for each of the four wood tones providing for a wealth of choices as well as a wide range of work. Deep rabbet profiles (1 1/8", 1 1/4", and 1 5/8") set the stage for artwork on canvas, shadowboxes for three dimensional framing, and multi-media projects. Thin faced profiles (5/8") are included for minimalist and elegant designs, and narrow faced floaters (1/4") play their part with a generous 1 1/2" depth that accommodates a variety of works on canvas, face mount displays, and more.*

*This timeless collection is well-suited for just about any style of artwork, which is likely the reason why it is trending well in today's market. Furniture finishes, and the warmth of the texture and tone of wood is a welcomed feature in interior design that softens and enriches both modern and traditional settings. The harmony of color and squared geometric lines also makes Jasper a great framing solution for unifying a collection of work, whether curating pieces for a gallery wall or when displaying a series of photographs, artwork, documents, or decor.*

## Combo Ready ▷

Stacking combinations invite creativity in design, whether to bring out tones in the artwork or simply to add visual interest.

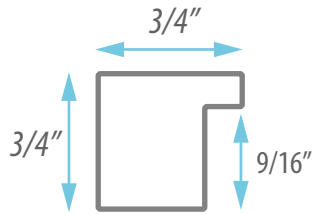

Stacking 84424 (maple) on the outside edge of 84435 (dark walnut) enhances the linear elements in the painting as well as highlighting the colors in the composition.
