PARKER

The Parker Collection gives us two looks; a handsome traditional classic with warm furniture finishes, as well as Mid-Century modern elegance. This duality is well sought after in today's market, bridging traditional interior design motifs with more modern tastes in both art and home design. Art and home accessories play an important part in helping to fuse sleek modern home tech in our interior spaces with elements that are naturally more in tune with visual appeal and comfort.

Classics that can pull off modern will make Parker a new standard "go-to" for Picture Framers and designers alike. With the most popular trends in art and home decor staying consistent with these motifs, it delivers solutions for fine art (paintings, etchings, and drawings) to contemporary (photography, serigraphs, and graphic art.)

Parker is a great companion to **Carlyle** and **York** collection mouldings. Gold, silver, black and plum selections from each can be used together in a series, on the same wall, or combined in a single design.

By keeping it simple, a lot can be achieved in creating an undeniable winning combination that hits on style points and fits into multiple interior design settings. Staying with a clean design can be key to allow the artwork's beauty to take precedence. Scale is also important; Parker's 1 5/8" width can accommodate small and larger work both physically and visually.
